

MUHAMMAD IBRAHIM JAFAR

Location: Abu Dhabi, United Arab Emirates

Date of Birth: 03 December 2001 | **Nationality:** Indian

Contact Number: +971 50 350 7469 | **Email:** mammoos@gmail.com

LinkedIn: www.linkedin.com/in/m-i-j | **GitHub:** www.github.com/MuhammadIbrahimJafar

PROFESSIONAL SUMMARY

Fresh graduate with a **BSc in Computer Science (Cybersecurity)** and a **Postgraduate Diploma in Information Technology (Business)**, with a strong interest in **data analysis** and aligning IT solutions with business objectives. Skilled in developing **Android applications using Android Studio** and proficient in **Java, Python, and C++**. Currently enhancing analytical and reporting expertise through a **Power BI certification course**.

Academic background in **cybersecurity** provides a solid foundation in security principles, while postgraduate studies strengthened understanding of **IT management, business processes, and leadership**. Seeking **entry-level roles as a Data Analyst, IT Business Analyst/IT Coordinator, or Security Analyst**, with a long-term goal of advancing toward **IT leadership positions**.

EDUCATION

Postgraduate Diploma in Information Technology (Business)

Heriot-Watt University Dubai

September 2024 – November 2025

- *Key skills: Database Systems, Leadership, Management Strategies, Competitive Strategy, Android UI/UX*
- *Technologies: MySQL, MariaDB, Firebase*

Bachelor of Science in Computer Science (Cybersecurity)

University of Wollongong in Dubai

September 2020 – March 2024

- *Key skills: Cybersecurity Fundamentals, Software Development, Human-Computer Interaction*
- *Technologies: Java, Python, C++, MongoDB, XML, Android Development*

Cambridge International Certifications (High School)

Cambridge International General Certificate of Secondary Education (IGCSE), 2018

Cambridge International Advanced Subsidiary Level (AS Level), 2019

Cambridge International Advanced Level (A Level), 2020

CERTIFICATIONS

- **Introduction to Data Analysis using Microsoft Excel** – Coursera, April 2026
 - **Google Cybersecurity Professional Certificate** – Google, April 2026
 - **CS50's Introduction to Cybersecurity** – Harvard University (HarvardX), January 2026
 - **CS50's Introduction to Artificial Intelligence with Python** – Harvard University (HarvardX), September 2025
 - **IELTS** – September 2020
-

PROJECTS

SOC-Inspired Monitoring Dashboard – Web Application (Ongoing)

- Developing a real-time system monitoring dashboard using Python and Flask
- Implementing live tracking of CPU and memory usage using system-level libraries
- Designed a custom risk scoring engine based on weighted system metrics
- Built dynamic data visualizations with real-time updates using Chart.js
- Currently expanding the system towards security monitoring features (alerts, anomaly detection, log collection)

AutoMate – Android Application (Automotive-Focused)

- Developed an Android application enabling driver-to-driver communication without sharing personal information
- Designed for real-world driving and road hazard notification scenarios
- Implemented QR code generation and scanning using Java and Android Studio
- Integrated push notifications and secure image storage

CourseMint – Student Guidance Application

- Developed a mobile application to assist students in subject selection based on career interests
- Implemented Firebase Authentication and Firebase Realtime Database
- Designed interactive UI components including slideshow sections

Midnight Finder – Android Application

- Built an Android application using public APIs to retrieve sunrise and sunset data
- Calculated exact midnight time based on geographical location
- Implemented API integration and light/dark themes

Bus Seat Allocator – C++ Console Application

- Designed a dynamic seat allocation system based on passenger categories
 - Applied programming logic using functions, conditions, loops, and user input handling
-

TECHNICAL SKILLS

Programming Languages: Python, Java, JavaScript, C++

Databases: MySQL, MariaDB, MongoDB, Firebase

Mobile Development: Android Studio, Java, XML

Soft Skills: Teamwork and Collaboration, Adaptability, Leadership, Problem Solving

Tools & Software: Figma, Microsoft Office, Adobe Illustrator, Blender, Canva, Adobe Lightroom, CapCut, VN

PROFESSIONAL INTERESTS

Automotive Technology, Connected Cars, Smart Mobility, Vehicle Safety Systems, In-Car Applications, Post-Quantum Cryptography, Mobile App Development, Web Development

ADDITIONAL INTERESTS

Piano, Drumming, Automotive Photography, Videography, Editing, Content Creation
